

A Weatherbee/Deyta/MVI Partnership

Multi-View Incorporated joins Hospice Quality Resources and the Weatherbee/Deyta Partnership

Hyannis, MA, Louisville, KY and Hendersonville, NC (May 5, 2008) – Weatherbee Resources, Inc and Deyta, LLC are pleased to announce that Multi-View Incorporated (MVI) has joined the strategic partnership that owns and operates Hospice Quality Resources, LLC (HQR). This expanded partnership significantly enhances the depth and breadth of quality and compliance tools under development at HQR.

Heather Wilson, PhD, President of Weatherbee Resources, states: "MVI is a perfect extension of our partnership. Like Weatherbee and Deyta, MVI is committed to providing excellent products and services to the hospice industry and is known for its quality, creativity and depth of industry knowledge with financial and operational data unavailable anywhere else."

J. Kevin Porter, CPA, President and CEO of Deyta states: "Deyta and MVI have long known that there was work we could do together. With the Weatherbee partnership and the formation of HQR, the time is now to join the ideas, solutions and resources of our three organizations for the benefit of hospices across the country."

"We are very excited about this new partnership," states Andrew Reed, CPA, President of Multi-View Incorporated. "I am convinced that the convergence of the creativity of Weatherbee, Deyta and MVI will lead to outstanding web-based applications available through Hospice Quality Resources for the entire hospice industry."

This strategic relationship does not impact the current services provided by Weatherbee Deyta, and MVI. It is neither a merger nor an acquisition. Each company will continue independently to provide their unique services to hospice programs across the country. HQR is a blending of the best each company has to offer. Deyta's technical expertise, combined with Weatherbee's quality and compliance resources and MVI's financial and management tools will enable the development of robust web-based applications that will help all hospices.

About Hospice Quality Resources, LLC. (HQR)

Hospice Quality Resources is a company owned and operated by Weatherbee Resources, Inc, Deyta, LLC and Multi-View Incorporated. HQR provides web-based applications to assist hospices in the collection of data related to regulatory compliance, satisfaction and performance measures. The first product available from HQR is the QAPI Navigator,TM developed in collaboration with Melanie Merriman, PhD, MBA of Touchstone Consulting, a robust web-based application designed to aggregate patient level-data and report hospice-level quality measures for identification of performance improvement opportunities. Later in the summer of 2008, after the publication of the new Medicare Conditions of Participation, the Virtual Hospice SurveyorTM and the ADR AssistantTM will be released. This innovative web-based application will provide hospices with Weatherbee's state-of-the-art audit and monitoring tools to enable subscribers to monitor their compliance with regulations and manage the ADR process. For more information about HQR, go to www.hospicequality.com.

About Weatherbee Resources, Inc

Weatherbee Resources, Inc provides consulting services and regulatory compliance products and programs exclusively to the hospice industry. As a leader in helping hospices streamline operations, comply with regulations and train staff and volunteers, Weatherbee's products and services are known for their high quality.

Weatherbee also owns and operates the Hospice Education Network, Inc at www.hospiceonline.com which utilizes streaming video technology to provide training resources for hospice staff and volunteers. The products and services offered by Weatherbee are designed to provide cost-effective solutions to the many challenges faced by hospices today.

Headquartered in Hyannis, MA, Weatherbee has provided products and services to hospices throughout the US since 1997. For more information about Weatherbee, visit www.weatherbeeresources.com or call C. Andrew Martin at 508-778-0008.

About Deyta, LLC.

Deyta, LLC is a provider of performance management systems. Deyta has designed and administered advanced survey methods and performance management tools for private and public sector organizations in specialty healthcare industries including hospice, home health, assisted living, LTAC, and the MRDD segment.

Deyta uses proprietary software, specifically designed for ease of use and reporting power, to provide an ongoing monitor of satisfaction trends. The information Deyta provides is an essential tool for identifying the ever-changing needs of an organization's internal and external customers, allowing organization leaders to make better decisions and increase the effectiveness of business initiatives. Deyta's services are based on the principle belief that customers can educate and direct organizations like no other source.

Headquartered in Louisville, KY, Deyta, LLC was founded in 1994 and serves clients throughout the US. For more information about Deyta, visit www.deyta.com or contact Craig Long at 502-896-8438 Extension 108.

About Multi-View Incorporated (MVI)

MVI helps hospices create operational models that balance care with the financial realities of our world. MVI has assisted in the creation of some of the most successful hospice business models to-date centered around the ideas of World Class Hospice and Designing the Perfect Hospice. MVI has worked exclusively with the hospice industry since 1996 providing model design, financial systems, financial/operational benchmarking via monthly automated data extractions, Medicare Cost Report preparation services, and perhaps the most intense training experiences in hospice regarding the business of hospice. The depth of operational Best Practice knowledge is deep and is quantified. MVI benchmarks over 700 data elements of hospice operations and ranks each element monthly on a percentile basis.

MVI has three offices with accounting operations in two locations in North Carolina and Benchmarking Operations in Vero Beach, Florida. For more information about MVI, visit www.multiviewinc.com or contact George Anderson at 828-698-5885.
